

Fundamentals of Extracorporeal CO₂ Removal

Pre-ESICM Course

28 September 2014 | Barcelona

OVERVIEW:

“Fundamentals of Extracorporeal CO₂ Removal (ECCO₂R)” is designed to answer practical questions about ECCO₂R therapy. What is the scientific rationale for ECCO₂R? In what types of patients and at what disease stage should it be applied? What technologies are available? How is ECCO₂R different from ECMO? How do you start an ECCO₂R program?

TOPICS:

- The evidence for ECCO₂R
 - A practical guide to ECCO₂R use in AE-COPD and ARDS
 - Technological aspects of ECCO₂R devices
 - Starting an ECCO₂R program on your ICU
- (Speakers will be announced soon)

WHEN:

Sunday 28 September 2014

1:30 PM to 4:00 PM

WHERE:

Hotel Barceló Atenea Mar

Paseo García Faria 37-47 | 08019 Barcelona
